

HOPKINSVILLE KENTUCKIAN

MATHER For Kentucky
Tuesday Fair and Colder

HOPKINSVILLE KENTUCKY, THURSDAY, OCTOBER 26, 1916.

VOL. 37 - No. 219

EDITORIAL COMMENT.

Camp Clark spoke at Greenville.

Welcome to the Pearl City of the Pennyroyal.

Good morning, doctor. If you can't see what you want, ask for it.

The new boosters who made good were J. T. Wall, L. K. Wood and John Stites.

If you don't know him, call him doctor. You'll make no mistake. They are all here.

Bread by the pound is the next move. Louisville has made a city contract at \$3.85 per 100 pounds.

Two or three school houses were passed where the children were lined up on the roadside to see the boosters go by.

Lucian H. Davis was yesterday elected Grand Chancellor of the K. P. Grand Lodge in session at Bowling Green.

Democratic women at Denver met the "skirt special" touring the West for Hughes with a counter demonstration for Wilson.

"Native Sons" did a good deal of the boosting Tuesday—C. R. Clark and Chas. M. Meacham at Gracey, J. T. Wall at Wallonia, L. K. Wood at Hopson's, M. E. Bacon and others at Cadiz and Morgan Boyd at Canton.

HUGHES IS DESPERATE

Repudiates the Support of the Hyphenates and Proclaims His Loyalty.

New York, Oct. 25.—Charles E. Hughes last night told an audience that crowded Scheutzen park hall in Queensborough, that he did not want the support of "any one who has any interest superior to that of the United States who would not instantly champion the right and interest of America against any country whatever, who wants immunity for foreign aggression or who would have the power of this nation held captive to any foreign influence or swerved by alien machinations."

PREACHING

At First Presbyterian Church Next Sunday.

Rev. J. N. Cheek, D. D., of Danville, Ky., will occupy the pulpit of the First Presbyterian church next Sunday morning, and probably Sunday night.

Dr. Cheek is a preacher of more than ordinary ability and those who go to hear him will be well repaid. Everybody is most cordially invited.

SOCIALIST SPOKE IN NASHVILLE.

C. G. Tefteller, of Hopkinsville, Ky., once representative of the populist party in the Texas legislature, and candidate for state senator on the socialist ticket from Memphis, and now candidate for Congress from the Second district on the socialist ticket, will speak tonight at Myrtle hall, 407 Union street.

Mr. Tefteller was a minister of the Presbyterian church. He is a splendid orator. His physiognomy and personality are said to give great resemblance to Abraham Lincoln. The lecture is free and the public is invited.—Tennessean.

Public Invited.

F. C. Brown, of Owensboro, will deliver an address at the Church Hill Grange hall tomorrow (Friday) afternoon at 1:30 o'clock. Everybody is invited and members of the grange are especially urged to attend.

BOOSTERS' THIRD TRIP BIG SUCCESS

Visit Towns In Trigg and Caldwell Counties With Sixty in Party.

BIG GREETING AT CADIZ
More Than 1,200 People Attended The Various Meeting Held.

THE ATTENDANCE.	
Gracey	100
Cerulean	350
Wallonia	100
Cobb	75
Otter Pond	25
Hopson's Store	150
Cadiz	400
Canton	50
Total	1,250

With perfect weather conditions prevailing, the Boosters made their Western trip Tuesday, 60 strong, in 17 automobiles. The start was somewhat delayed, as hasty provision had to be made for some additional cars.

The party got away shortly after 7:30 via the Julian pike and passed Julian too early for the people to meet the Boosters. The stop here was cut out and 15 minutes gained. Gracey was reached only a little late and a good meeting was held here, with music by the orchestra and speeches by the two "natives"—Claude R. Clark and Chas. M. Meacham.

Cerulean Springs was reached almost on time, as the roads were found in good condition. A fine crowd was on hand and speeches were made by H. H. Abernathy, R. E. Cooper, L. E. Foster and Chas. M. Meacham. The whole party then partook of the hospitality of Mr. and Mrs. W. N. Stice, who assisted by a committee of ladies served hot coffee and tea cakes to the guests. Songs were sung and cheers given for the hosts, and the good people of Cerulean and a reluctant leave was taken a half hour behind the schedule time.

Wallonia was next reached and here there was a cordial reception. The school near by turned out, as had been done at Gracey and Cerulean.

Master of Ceremonies Clark introduced J. T. Wall as the man who put Wall in Wallonia, that being his native town, and the popular merchant made his debut as a booster orator in fine style. He was followed by James West, R. E. Cooper and L. E. Foster.

Cobb had a smaller crowd including a group of ladies, and a respectful hearing was given to the tobacco men who did the speaking there, Messrs. Cooper, Abernathy and West.

The delay of nearly an hour spoiled the meeting at Otter Pond. A crowd had been there at 10:55 but most of the people had gone to Harmony church near by, where a protracted meeting was in progress and nearly everybody in the neighborhood was at church. The only speech was made by Chas. M. Meacham, who expressed regret that the boosters had conflicted with a religious service and recalled the fact that his father had for many years been pastor of the Harmony church and that as a boy he had visited the neighborhood many times. It was a pleasure to be once more among his father's friends and traveling in the same car with L. K. Wood, a son of Chas. W. Wood, for a long time the clerk of the church and at whose house he had often been as a child.

Hopson Store, the next point in Caldwell county, gave a most cordial greeting. An address of welcome was given by W. O. Childress, a local orator, who proved to be an eloquent speaker. James West and L. K.

GREATEST TENOR COMING

Riccardo Martin To Sing At the Tabernacle in Week of Nov. 18th..

IS A HOPKINSVILLE BOY

Will Be His First Engagement In the City of His Birth.

Garland Cooper, who is now manager of the Fine Arts Society, of Nashville, has requested the announcement that he has secured an engagement in Hopkinsville during the week of November 18th for Riccardo Martin, America's greatest tenor and a Hopkinsville boy.

Mr. Martin has been here several times to see his relatives of recent years, but has never been heard by the people, many of whom knew him as the boy, Hugh Martin. He has many near relatives here, being a first cousin of Mr. Thos. C. Underwood.

Mr. Cooper is to be congratulated upon bringing this great singer to the city.

NEW GARAGE BEING BUILT

Mr. Metcalfe Will Erect Up-to-date Structure on Seventh Street.

John J. Metcalfe has started breaking ground for a new auto garage on his lot in the rear of Hotel Latham.

The building will extend back to the John Young portion of the lot and will be 75 feet wide, fronting on Seventh street. The front will be of pressed brick, with plate glass and will have all modern conveniences for the automobile business. It is to be completed by Jan. 1 and will be occupied by the local agent for the Ford cars.

ROAD WORK

Meeting Held to Consider the Construction Under Way.

At a meeting of the H. B. M. A. Monday night the matter of the torn-up condition of some of the roads was discussed with Engineer Folsom and an agreement was arrived at. The roads will be speedily put in condition and the contractors ask that people who use the roads show some reason and judgment about using roads under construction.

A committee composed of James West, R. E. Cooper and Frank K. Yost was appointed to confer with the contractors and the road commission, with a view to obtaining such co-operation as will meet the requirements of the public; and there were assurances that all the parties were eager to do everything possible to this end.

BAIL FIXED.

Lyman Lucas was yesterday admitted to bail for \$3,500 by Special Judge Frank Rives. He has not yet made bond. Lucas is charged with the murder of Jas. Culwell.

Candy in 1914.

Washington, Oct. 25.—The people of the United States spent \$170,845,000 for candy and chewing gum in 1914. According to a statement issued by the Census Bureau here, this sum was 30 per cent larger than the sweet tooth bill of 1909. In 1914 there were 2,391 candy and chewing gum factories, employing 65,791 people. The capital invested amounted to \$97,467,000. Salaries and wages called for \$33,813,000, and the materials used were valued at \$101,665,000.

KENTUCKY MEDICAL SOCIETY

Holding its Sixty-sixth Annual Session In The City With 300 Present.

MANY SCIENTIFIC TOPICS

Are Being Discussed By The Ablest Doctors of Kentucky And Other States.

The sixty-sixth annual meeting of the Kentucky State Medical Society met here Tuesday.

The House of Delegates was convened at 2 p. m. at the Christian church. It was called to order by the President, Dr. J. W. Kincaid, of Catlettsburg. Reports were submitted by Dr. W. S. Sandbach, Chairman of the Credentials Committee, Dr. J. G. Gaither, of the Program Committee, and Dr. R. L. Woodard, of the Arrangements Committee. Other routine business was attended to. A night session was also held. The first general session was at 9 yesterday.

The address of welcome for the city of Hopkinsville was delivered by T. C. Underwood, and for the Medical Society by Dr. H. C. Beazley. These cordial greetings were responded to by Dr. W. G. Kingsolving, of Eddyville.

Dr. Milton Board was elected President yesterday morning, the position having been vacant since the death of Dr. Vance.

A scientific session was held from 10 to 12 with papers by C. W. Downen, Louisville; B. B. Keys, Murray, P. E. Blackerby, Erlanger and D. H. McKinley, Winchester.

This was continued at two o'clock with papers on various subjects by C. G. Hoffman, Louisville; Carl L. Wheeler, Lexington; Chas. A. Vance, Lexington; A. O. Pfingst, Louisville; Wm. R. Thompson, Louisville; S. M. Crowe, Centertown and Rowan Morrison, Louisville.

A public session was held last night with lantern slides. C. C. Bass, of New Orleans, discussed "The Problem of Malaria," and J. C. Bloodgood, of Baltimore, "The Cancer Problem."

The morning Scientific Session will open at 8:30 this morning with six papers on the program covering a variety of topics.

An oration in surgery at noon is a special order.

Physicians on the morning program today are G. C. Hall and J. B. Lukins, Louisville; Seldon Cohn, Fulton; H. G. Reynolds and P. H. Stewart, Paducah; H. E. Prather, Hickman and W. L. Gambill, Jenkins.

On the afternoon program are Carl Norfleet, Somerset; J. N. McCormack, Bowling Green and Jno. D. Trawick, W. A. Jenkins, Irvin Abell, J. G. Sherrill, S. J. Meyers and W. B. Owen, all of Louisville.

For tomorrow there will be ten papers, seven in the forenoon and three in the afternoon.

Those on these programs are C. R. Lanahan, G. S. Hanes, Bernard Asman and D. A. Willmoth, of Louisville; Jno. A. Snowden, Winchester; Frank Boyd, Paducah; V. A. Stilley, Benton; Everett Morris, Oak Forest, Ill.; J. W. Crenshaw, Cadiz, and a concluding talk, "Then and Now," by B. P. Earle, Dawson, Ky.

The hotels are crowded with doctors but some are stopping with friends and the big crowd is being handled without difficulty.

Dr. Lillian South, of the Health Department of the State, is one of the few lady physicians present.

In the basement of the Christian church are many displays of instruments, articles and medicines of interest to the profession.

Two former Christian county boys, now of Louisville, are here—Dr. W. E. Gary and Dr. David Y. Keith,

MRS. KNIGHT PASSES AWAY

Noble Christian Woman Died at Early Hour Yesterday Morning.

FUNERAL AT 2 P. M.

Was The Mother of Eight Children, All of Whom Survive Her.

Mrs. Margaret E. Knight died at her home at 1537 South Virginia street, at 5:40 yesterday morning, after a protracted illness, the immediate cause of her death being pneumonia. Her age was 69. She was the widow of the late J. R. Knight and is survived by two sons and six daughters. The sons are County Judge Walter Knight and John R. Knight, of Church Hill. The daughters are Mrs. J. F. Dixon, of Howell; Mrs. C. R. Adams, of Beverly; Mrs. P. W. Stevenson of Gracey; Mrs. C. H. Stowe of Church Hill; Mrs. Lucian J. Harris and Miss Elizabeth Knight, of this city.

She was a member of the Methodist church and her funeral services will be held this afternoon at 2 o'clock by her pastor, Rev. Lewis Powell. The interment will be in Riverside cemetery.

Mrs. Knight was a noble Christian woman. She was left a widow many years ago and upon her devolved the duty of rearing her large family of children.

BACK TO CALLOWAY

Judge Bush is Closing His Campaign in The Lower Counties.

Judge C. H. Bush left last night for Calloway, where he will speak for the rest of the week and return home Saturday night.

Last week he made five speeches in Lyon and Four in Trigg and spoke Monday at Murray. Everywhere he has had good crowds and has found the situation all that he could ask.

All of next week he will spend in this county campaigning a part of the time with Congressman Kincheloe. Appointments will be found on the seventh page of this paper for many places where Judge Bush and other will speak.

The lower counties will all give big majorities for Judge Bush and his election is assured if his home county gives him proper support, and there are no indications that this will not be done.

TWO KENTUCKIANS KILLED.

Sidney, O., 25.—Mack Price, aged 40, and Charles Sickles, 38, were killed, and Robert Turley, 22, was severely scalded when a boiler used in bridge construction exploded. The men are members of a construction gang from Hopkinsville, Ky.

The body of Price arrived here Monday and was taken to Lafayette for interment.

BUYS A LAUNDRY.

Mr. P. A. Steele, who sold his laundry interests here some time ago, has bought the Home Laundry at Huntington, W. Va., and took charge of same this week. Mrs. Steele, who is in Princeton on a visit to her parents, Mr. and Mrs. W. H. Rich, will join her husband at Huntington next week.

REVIVAL BEGINS SUNDAY.

A protracted meeting will commence at Vaughn's Chapel tomorrow morning at 11 o'clock. The pastor, Rev. Virgil Elgin, will be assisted by Rev. H. H. Jones, of Trenton.

CRUSHING OF RUMANIA IN DOBRUDJA

Now The Object of The Teutonic Forces on Eastern Front.

LOST GROUND AT VERDUN

Rumanians Hard Pressed and 6,700 Prisoners Taken in Dobrudja.

London, Oct. 25.—Switching their offensive from the Somme region in France—possibly as a counter to the advance of the Teutonic allies in the Dobrudja region of Rumania—the French smashed the German line north and northeast of Verdun over a front of four and one-third miles, penetrating it along its entire length in the center gaining a distance of nearly two miles.

Preceded by a violent bombardment, such as marked the great attacks and counter-attacks during the days when Verdun was the focal point in world interest, the offensive was delivered approximately from the eastern banks of the Meuse river near Bres eastward of the Damloop battery.

When night fell, the village and fort of Douaumont in the center, were in the hands of the French while on their left wing the Frenchmen had pushed beyond Thiaumont and captured Haudmont quarry, and taken up position along the Bras-Douaumont to Damloop. More than 3,600 prisoners and quantities of war material were captured by the French.

In the Dobrudja region of Rumania, the Germans, Bulgarians and Turks are giving no rest to the Russians and Rumanians, who continue in retreat along the entire front from the Black sea to the Danube river, although at some points they are vigorously opposing the advance of the invaders.

THURSDAY, OCT. 26

DEMOCRATIC TICKET

For President.
WOODROW WILSON,
of New Jersey.

For Vice President.
THOS. R. MARSHALL,
of Indiana.

For Congress
D. H. KINCHELOE,
of Hopkins County.

For Circuit Judge
CHAS. H. BUSH,
of Christian County.

A special session of the McCracken
county circuit court has been
called for tomorrow at Paducah to
investigate the lynching of two negroes
near that place Oct. 16.

The total wheat harvest of the world
is estimated by the International Agri-
cultural Institute as seven per cent.
below the average and twenty-five
per cent. below that of last year. The
Institute's report includes for the first
time the crop of European Russia,
which it estimates to be twenty per
cent. less than that of last year.

A system of sterilizing wounds that
has been successfully applied at the
hospital at Copenhagen under the direc-
tion of Dr. Alexis Carrel, of New
York, has been extended to the Ameri-
can Hospital at Neuilly, the American
and Belgian hospitals in Belgium and
probably will be adopted in all the
war hospitals of the entente allies.

Dr. John Patrick, Turner, a negro
physician of Philadelphia, is working
out the details for a town in the moun-
tains of North Carolina in which only
colored people will be allowed. It is
proposed to make the place a center
for development of negro music.
There is also to be a university and
industrial school.

Work of the State Tax Commission
has reached the point where a tentative
draft of the revenue bill, being
prepared in anticipation of a special
session of the General Assembly, has
been placed in the hands of Attorney
General Logan. Senator Hite Huff-
aker, chairman of the commission,
came to Frankfort and left a copy of
the tentative draft with the Attorney
General.

The direct election of United States
senators will have its first full trial
this fall. The senators whose terms
expire with President Wilson's next
March are:

Democrats—Ashurst of Arizona,
Bryan of Florida, Chilton of West
Virginia, Culberson of Texas, Hitch-
cock of Nebraska, Johnson of Maine,
Lea of Tennessee, Lee of Maryland,
Martine of New Jersey, Myers of
Montana, O'Gorman of New York,
Pittman of Nevada, Pomerene of
Ohio, Reed of Missouri, Swanson of
Virginia, Taggart of Indiana, and Wil-
liams of Mississippi.

Republicans—Catron of New Mexico,
Clapp of Minnesota, Clark of
Wyoming, Du Pont of Delaware, La-
Follette of Wisconsin, Lippert of
Rhode Island, Lodge of Massachusetts,
McCumber of North Dakota, McLean
of Connecticut, Oliver of Pennsylvania,
Page of Vermont, Pindexter of Utah,
Washington, Sutherland of Utah,
Townsend of Michigan, and Work of
California.

Under the constitutional amendment
proclaimed May 31, 1913, the direct
election of senators was put in force
throughout the Union.

GREAT WRITER HAD RIVALS

Elizabethan Age Memorable for Its
Drama Without Shakespeare,
Scholar Says.

The score of busy playwrights who
preceded Shakespeare and prepared
the ground with experiments in which
he was to triumph, have been re-
viewed by Prof. Felix Schelling, head
of the English department of the Uni-
versity of Pennsylvania.

Doctor Schelling's lecture was on
"Shakespeare's Competitors in the
Drama."

"For, had Shakespeare's death been
untimely like that of Marlowe," Doctor
Schelling said, "we might question
his primacy. Had Shakespeare
never lived, his age would still have
been memorable in the drama for the
group of playwrights of extraordinary
stature—a group in which the lesser
names can easily match our Shaw,
Barries or Pinero." Doctor Schelling
compared the modern problem dramatists
unfavorably with those of the past.

Doctor Schelling expressed regret
that it has been the habit of the older
scholarship "to disregard the en-
vironment of Shakespeare and to neglect
the lesser luminaries who surround him." He said, in part:

"Shakespeare is not the inventor of
Elizabethan drama. He did not find
its dramatic London brick and leave
it marble. Shakespeare added no
single new form to the variety that
already flourished on the stage.

"We have to deal with the group of
writers known to every school book
as the predecessors of Shakespeare:
Lily, Peele, Greene, Lodge, Kyd, Nash
and Marlowe.

"Among the competitors of Shakes-
peare none was so important as Ben
Jonson."

LIFE BETTER AND BROADER

Recent Years Have Seen a Vast Im-
provement in Conditions Under
Which We All Live.

The spirit of democracy, states
Prof. James Q. Dealey in Case and
Comment, implies a kindlier and more
sympathetic religion and higher stand-
ards in moral life. This is shown by
the growing humanitarianism of re-
ligion, and the rise of numerous agen-
cies for the alleviation and banish-
ment of human suffering. Criminal
codes are becoming humane, cities are
vigorously pushing the betterment of
vicious conditions in social life, and
labor organizations countenanced by
the state are working earnestly for
the social and economic improvement
of their members.

Intellectual development, freed
from the incubus of dogmatism, has
broadened out into an attempt to un-
derstand the whole of life, and through
its achievements in science has made
modern civilization progress by leaps
and bounds. The spiritual and the
esthetic side of life have been deepened
by a truer insight into ideals of
harmony and beauty, derived from a
wider experience and knowledge of
physical and mental phenomena.

Life for the average man has be-
come a happier, broader, and more
generous existence than that endured
by his fathers. We realize now the
futility of the old belief that goodness
and wisdom are innate only in the
privileged classes.

Elephants' Curious Teeth.

Whoever has looked inside an ele-
phant's mouth has seen a strange
sight. Elephants have no front teeth,
and they never eat flesh, or any food
that requires tearing apart. Eight
teeth are all they have, two above and
two below on each side, huge yellow
molars as wide as a man's hand. Over
these hay or fodder is shifted by the
queerest, ugliest tongue in the whole
animal kingdom, a tongue that is liter-
ally hung at both ends, having no
power of movement except in the
middle, where it shifts back and forth
from the side, arching up against the
root of the big mouth like an immense
wrinkled pink serpent.

Elephants, like human beings, have
two sets of teeth. The milk teeth,
which are smaller than the permanent
molars, fall out when the animals
are about fourteen years old. These
baby teeth—which are, nevertheless,
enormous—are occasionally picked up
by circus men among the fodder and
preserved as curiosities.

Power of Love.

The poor, weeping woman stood be-
fore the judge, and the sympathies of the
spectators went out to her. She
looked muscular, but so miserable.

"You are charged," said the magis-
trate sternly but kindly, "with assault-
ing your husband."

Gulping down her sobs, the prisoner
wiped away her tears with a hawny
arm and replied sadly:

"Yes, your worship. I only asked
the brute if he would ever cease to
love me, and he was so long in an-
swering that I hit him in the eye with
a broom. I'm only a defenseless woman,"
she went on in a broken voice,
"and a woman's life without love is a
ruin blight!"

Saved Room.

Merchant—Did you post my letter
as I told you, John?

John—Yes, sir; but I had it weighed
first, and, as it was double weight, I
put another stamp on it.

Merchant—That's right. Only I hope
you didn't put the extra stamp on so
that it would obliterate the address.

John—Indeed, I didn't, sir. I just
stuck it on top of the other stamp so
as to save room.

**GERM IS
DISCOVERED**

Dr. Burrows Says it Enters
The System Through
The Food.

Baltimore, Oct. 23.—The mystery
surrounding the cause of the spread
of infantile paralysis has been solved,
according to an official announcement
made at Johns Hopkins hospital. Extensive
research conducted by Dr.

Horace T. Burrows, pathologist of the
hospital, has resulted in the discovery
of the infantile paralysis germ, the
existence of which was established
nine years ago by Dr. Simon Flexner,
of the Rockefeller Institute.

According to Burrows, the disease
is not spread by contagion, but the
germ is introduced into the human
system through the mouth in milk or
water.

Present always in every case of the
disease a germ has been found in the
big intestines, showing that the dis-
ease is spread by some raw food.
That the food is milk or water is es-
tablished by the fact that the babies,
whose only diet has been milk or water,
died of the disease.

Bad Colds From Little Sneezes Grow.

Many colds that hang on all winter
start with a sneeze, a sniffle, a sore
throat, a tight chest. You know the
symptoms of colds, and you know
prompt treatment will break them
up. Dr. King's New Discovery, with
its soothing antiseptic balms, has
been breaking up colds and healing
coughs of young and old for 47 years.
Dr. King's New Discovery loosens
the phlegm, clears the head, soothes
the irritated membrane and makes
breathing easier. At your Drug-
gist, 50c.—Advertisement.

Shoemaker Was Honest

Mrs. R. Lovelace, of Cleveland, O.,
temporarily stopping in Jeffersonville,
placed \$50 in a pair of shoes for safe-
keeping. She sent the shoes to the
repair shop of William Bizer, 442
Spring street, forgetting the money
was in them. Later in the day she
went to the shop, and \$45, which had
been found by Hyman Subergle, who
is employed by Bizer, and \$5 still in
one of the shoes, was returned to her.
Subergle worked for an hour before
he examined the shoes. The money
had fallen from the shoes.

A Silent Salesman.

Many manufacturers of machinery
that is too heavy or too bulky to be
sent for inspection to a prospective
customer now give their traveling
salesmen sets of motion pictures
that show exactly how the machines work.
According to the Engineering Maga-
zine, the salesmen carry small, light
motion-picture projectors that can be
connected with the lighting circuit in
the office of the customer. A blank
wall serves for a screen. Since the
motion picture is independent of the
seasons, the salesmen can show a har-
vester at work in winter or a seeder
or planter in the fall. The films also
help to overcome the instinctive oppo-
sition that many buyers of machinery
and equipment display toward new ap-
paratus and new methods. Such men
will not listen to the salesman or go
to see the new machine in operation
but they will look at the motion pic-
tures.—Youth's Companion.

**Children Cry
FOR FLETCHER'S
CASTORIA**

Four Killed.

Altoona, Pa., 23.—Four automobilists
were killed and one was probably
fatally hurt in a grade crossing accident
on the outskirts of this city last
night. The motor car, bearing Mrs.
A. Z. Pote, her 10-year-old daughter
and a son, and Ruth and Laura Meyers,
all of Bakers Summit, to this city,
was struck by a train on the Hollidaysburg
branch of the Pennsylvania railroad.
All were instantly killed except Julian S. Pote, the son, who
was driving. He was so badly injured
that recovery is doubtful.

Every Woman Wants**Paxtine
ANTISEPTIC POWDER**

FOR PERSONAL HYGIENE
Dissolved in water for douches stops
pelvic catarrh, ulceration and inflam-
mation. Recommended by Lydia E.
Pinkham Med. Co., for ten years.
A healing wonder for nasal catarrh,
sore throat and sore eyes. Economical.
Has extraordinary cleansing and germicidal power.
Sample Free. 50c. all druggists, or postpaid by
mail. The Paxtine Tissue Company, Boston, Mass.

Might Not Be Alive.

McMinnville, Tenn.—Mrs. Ole
Jett, of this place, writes: "I don't
believe I would be living today, if it
hadn't been for Cardul. I lay in bed
27 days, and the doctor came every
day but he did me no good. Finally
he advised an operation, but I would
not consent, and instead took Cardul.
Now I am going about the house
doing my work, and even doing my
washing. Cardul worked wonders in
my case. I am in better health than
for five years." Cardul is a strengthen-
ing tonic for women, it relieves
tension, tones up the nerves, builds
strength. Try it. At your druggist's.

MISS OPPORTUNITY YOU MISS SUCCESS

Waiting For the Seventh Wave Is Foolish.

WISCONSIN FIRM'S SCHEME.

An Up to Date Merchant Who Successfully Fought Fire With Fire—Local Dealers Request Consumers to Give Them an Opportunity to Figure. Can and Will Meet Competition.

(Copyrighted, 1914, by Thomas J. Sullivan.) If you want to succeed in the world you must make your own opportunities as you go on.

The man who waits for the seventh wave to toss him on dry land will find that the seventh wave is a long time in coming. You can commit no greater folly than to sit by the roadside until some one comes along and invites you to ride with him to wealth or influence.

Business men, local and otherwise, in the entire country, are desirous of increasing and extending their business, and if they did not care to do this they would not be in business.

Can Successfully Cope.

It is doubtful if there be a local retailer in the country who could not successfully cope with the mail order and catalogue retailer without trying. This local merchant may not know, but nevertheless it is an absolute fact.

There is a retail firm in a town in Wisconsin which conspicuously displays upon its counters one of the catalogues of the largest Chicago mail order houses, upon the cover of which is printed a notice that it will furnish any article advertised in the catalogue as cheaply as the buyer can secure the article from Chicago, and it lives up to the advertisement attached to the very letter.

Mail Order House Seconds.

The substantial local merchant knows well that the cheap stoves sold by the catalogue mail order houses are light-weight stoves, that the iron beds shown in the advertisement matter as massive frames with strong corner posts and heavy crossbars are light castings, commonly known to the trade as "seconds," which no honest or reliable furniture dealer would keep in his stock because he could not sell them to people who were given an opportunity to inspect the goods before purchasing.

Fire, Life, Tornado—Accident and Health Liability.

Workmen's Compensation.

It is only on very rare occasions that patrons of a mail order house ever get the worth of their money when they buy from the pictures in the catalogue, while, on the other hand, the local retailer, if he understands his business, buys his stock direct from the manufacturers and jobbers who have a reputation at stake and who supply goods of quality to their direct representatives, the retail merchants throughout the country.

Prize Their Reputations.

The responsible high grade manufacturer and wholesaler will not under any condition or circumstance sell their goods to the catalogue retailer at any price. Many instances are known where catalogue houses secured by trickery a quantity of staple goods of standard make and advertised them as "specials" at ridiculously low prices. The manufacturers, in order to protect their reputations and interests, necessarily had orders sent in for the entire stock or quantity of the articles through persons in their employ. They did not propose to have their articles, which were standard, advertised by the side of inferior articles of light weight and of decidedly cheap construction.

A Vast Difference.

There are numberless articles which the catalogue house advertises as the best on the market, among which are paints, and it often agrees to furnish an impossible guarantee with this class of goods. However, it is very noticeable that it never attempts to ship its paints into states that require a printed copy of the analysis of the contents of the packages.

The answer to this, of course, is that the goods are not as represented in the catalogue. The up to date local merchant, of course, is conversant with these facts and can explain them to his customers if given an opportunity, and he can also, if he understands his business thoroughly, explain the vast difference between the goods sold by the catalogue house and those sold by him.

ARTICLES CHALLENGE EXPLANATIONS.

The cheap, flimsy, flimsy article can never stand alongside of the honest, reliable article without challenging an explanation.

The business man who cannot meet this demand upon him is not up to date, and his education regarding the line of goods he carries should be touched up.

If the home town consumers are alive and awake to their own interest they can begin to educate the local merchants by demanding from them the information concerning the difference in the quality of their goods and the goods of the catalogue retailer. If they are unable to explain why they will also be unable to render efficient service to their customers.

It is time merchants of this kind wake up to the situation.

ERADICATE FARM PEST

Quack Grass Reproduces From Seed and From Roots.

Two Methods Recommended to Destroy Weed—Growing Cultural Crop and Summer Fallowing—Much Labor Is Required.

Quack grass can be exterminated. F. L. Kennard of Minnesota says that the principal requisite is a firm resolve to rid the soil of the pest.

The weed reproduces both from seed and underground root stocks.

It may be brought to a farm in the form of seed, but the spread is usually by scattering root stocks about with the harrow or other farm implement.

Mr. Kennard recommends two methods of attack: Growing a cultural crop and summer-fallowing.

Where the land is badly infested the farmer will require a great deal of hard labor. If the pest is to be exterminated no green portion must be allowed to show itself and that means eternal vigilance on the part of the farmer. It is not enough to keep the soil clean between the rows. None of the grass must be permitted to grow in the hills. Two years of this treatment is recommended.

When land is partly occupied, the summer-fallow method is probably most economical. One crop is lost, but the additional yield the succeeding

year will usually offset this when the low cost of cultivating fallow land is considered.

The field should be plowed in the fall and again in the spring to a depth of six or eight inches. A good mulch three inches deep should be prepared with disk and harrow and this mulch kept cultivated with sufficient frequency to prevent any growth above the surface of the ground. By preventing this part from developing the roots are simply starved to death.

BOOSTERS' THIRD TRIP BIG SUCCESS

(Continued From First Page).

Wood were the speakers for the boosters. Mr. Wood was in sight of his old home and his mother was present. The boosters crowded about her to praise her son and it was a happy moment for her to find her boy the spokesman for the business men of his adopted city. Mr. Wood proved to be one of the best speakers on the trip.

The crowd left Hopson's nearly an hour late for a 12-mile run to Cadiz, where they were due at 12:40. Here again the delay interfered with the meeting, as the school, which had been let out for the speaking, had to reassemble while the hungry crowd was getting dinner.

The Cadiz people gave a most cordial reception. A committee that filled seven automobiles met the boosters a mile from town and escorted them in. After dinner addresses of welcome were made by John Crenshaw and Mayor Blane, after which the boosters presented as their spokesmen R. E. Cooper, J. T. Wall, Jas. West, H. H. Abernathy, John Stites and Chas. M. Meacham. Claude Clark presided and the orchestra gave several musical numbers.

The party left for Canton a little after 3 o'clock and upon arrival found the whole town attending a funeral. The few people present were addressed by L. K. Wood, H. H. Abernathy, R. E. Cooper and Jas. West.

It was then too late to cross the river and the Golden Pond trip had to be abandoned.

The run from Canton home was made by 6 o'clock. This the third trip was not as big a trip as the others, but it was quite successful and was undoubtedly productive of good.

This is probably the last one for this season.

Those who went were:

C. R. Clark, L. K. Wood, T. J. Baugh, W. S. Davison, Geo. H. Smith, Sam Ficken, E. C. Radford, H. H. Abernathy, J. T. Wall, Frank D. Trice, W. W. Walker, Geo. Duffer, R. E. Cooper, Geo. Bradley, F. How to Treat Croup Externally

Rub Vick's "Vap-O-Rub" Salve well over the throat and chest for a few minutes—then cover with a warm flannel cloth. Leave the covering loose around the neck so that the soothing medicated vapor arising may loosen the choking phlegm and ease the difficult breathing. One application at bedtime insures against a night attack. 25c, 50c, or \$1.00. At druggists.

VICK'S "VAPORUB" SALVE

Would-be Libertine.

Chicago, Oct. 25.—Confronted by evidence that he had written more than 100 letters attacking the reputation of one of his women teachers, John Henry Heil, principal of the Morgan Park high school, after an all night grilling in the office of the board of education, confessed that he had attempted to wreck the teacher's home to win her for his sweetheart. Heil's resignation was accepted and on promise to leave Chicago within twelve hours it was agreed that he should not be prosecuted. Heil has a wife and five children, and the woman to whom he wrote, Mrs. Moore, is married to Oliver C. Moore, a dental student in Northwestern university. She was teaching to pay his tuition.

SPARROWS

MUST GO

League of American Sportsmen Urges Nation-Wide Campaign.

The League of American Sportsmen, whose object is the preservation of wild life, is considering the question of inaugurating a nation-wide campaign for the destruction of the English sparrow. Its officers say this bird has made such headway here that it is driving out the small song and insectivorous birds, and that it has become a question of whether we shall have only the English sparrow to represent our bird life or destroy it and resign some 50 species of useful and beautiful birds that used to inhabit cities, farms and countryside all over the land.

The League intends to ask the Governor of each state to issue a proclamation declaring war on the English sparrow and setting aside a week, possibly in April or May of next year, to be devoted especially to destroying nests of this pernicious pest. Printed instructions as to the plan of the campaign will be sent to the Mayors of all incorporated cities and villages, to the heads of the school systems in every county, to college Presidents, to Principals of preparatory schools, to the heads of the Boy Scouts in each State, and other organizations which might be expected to extend sympathy and aid.

Four principal methods of action will be employed: Tearing down the nests, trapping the birds, shooting them under police supervision and under licenses issued by the police authorities, and, in cities where water pressure is available, turning the hose on the birds at night after they have gone to roost.

MILLIONS

STARVING

Appeal For Relief For the Destitute Armenians Is Made.

In compliance with President Wilson's proclamation and appeal to the American people in behalf of the distressed and starving millions of Armenia, Syria, Persia and Palestine, Dr. Powell of the Methodist church brought the condition of those people to the attention of his congregation Sunday and an offering of \$40 was promptly made.

This is an appeal that should move every church, organization, family and individual in Hopkinsville.

The Armenians in this country have already contributed one million dollars for the relief of their countrymen. But not more than one fifth of the money needed has so far been contributed to keep these starving millions from extinction.

Mr. Ira L. Smith, at the City Bank & Trust Company, is the treasurer of this relief fund and if you desire to help you can hand or send to him your contribution. But let us all help, for calls of distress do not come this way in vain. This is one of the times when our people of Hopkinsville and Christian county will rally as one man to the help of starving Armenia, Syria, Persia and Palestine.

LAST CALL

Wednesday is the last day of the October bargain offer of The Evansville Courier. Everyone in this part of the world is subscribing for The Courier at a bargain rate. A brilliant newspaper, bringing the first news of the world, it is a bright visitor on long winter days. If you haven't subscribed yet, you'll have to hurry. —Advertisement.

Oases in the Cities.

The offices, factories and tenements fill in their ranks and stand shoulder to shoulder in their endless drill of goad-stepping economic efficiency. And yet, if we stop to think what makes a city worth living in, it is perfectly sure that a wiser generation than ours must open oases in our architectural deserts, must multiply our flowing waters, purify them, widen the banks and set them with parks. In these things are the welfare assets of a city; while offices, docks, factories, terminals, etc., are mechanical devices for enabling more people to win leisure and enjoy them.—Collier's Weekly.

A glass of hot water before rising; grapefruit or two oranges in the morning with abundance of cereal, milk, and whole wheat bread with syrup; an ample lunch about the mid-day of the day, taken leisurely in pleasant surroundings, and a meal at night, preferably without meat, fish or eggs, taken in a leisurely fashion, also. One or two apples might be eaten just before retiring. One or two glasses of water during the morning and in the afternoon.

"Good respiratory habits must be acquired. Ten minutes in the morning while dressing, spent in taking slow abdominal muscle exercises, with deep breathing, should begin the day. They should be repeated for two or three minutes before luncheon, in the evening and before bed. A correct posture in a comfortable chair should be adopted at the desk, especial attention being given to prevent sagging of the abdominal muscles."

Toadskins Cure Dropsy.

Toads have always been looked upon as batosomous and even poisonous by country people. From the skins, however, of toads, quacks in the middle ages used to make all sorts of medicines to sell to their patients.

The remarkable discovery has been made by Doctor Abel that the quacks were not so far wrong as many people thought. He made a study of a giant tropical toad found in the river Amazon, and from its skin he extracted a remarkable substance which cures dropsy.

Of course it has long been a "grandmother's remedy" to cure dropsy by means of the skin of a toad, and it was to find out if there was any truth in the remedy that Doctor Abel began experimenting. The same substance he found in this tropical species has also been found in the common toad. Soon doctors will prescribe, perhaps, boiled toad and caper sauce for dropsical patients.

Meaning the Chorus.

"Why are such strenuous efforts made to entertain the tired business man?"

"Purely and simply for the money there is in it."

"Then, you don't consider it a form of philanthropy?"

"No, although musical comedy affords a large number of good-looking young women an easy way of making a living who might otherwise have to work for the tired business man or shopgirls and stenographers."

Spotted.

"My friends, I stand before you tonight," said the orator, "with a definite purpose in view. I come to you with a message."

"And it's prepared, too!" shouted a voice in the rear.

"What do you mean, my friend?"

"You can't pull the wool over the eyes of the honest voters in this here country. We know you're one of them corporation lawyers."

DOG WITH AN INDIVIDUALITY

Novelist's Pet Had Many Peculiarities.

Some of Which Were the Cause of Embarrassment.

During a summer's sojourn in her native home in Texas, Mrs. T. P. O'Connor, the talented wife of "Tay Pay," wrote a book on the traits and individual characteristics of various dogs that she has owned or known. While in New York, on the eve of her return to England, she was interviewed by a representative of the New York Sun, to whom she told the following story of a dog owned by Barrie, the famous novelist and dramatist. The dog was evidently the prototype of the Newfoundland in Barrie's "Little White Bird."

"Mr. Barrie told me this story," said Mrs. O'Connor. "He said that the dog had a craze for dolls. They would pass a shop, and the dog would see a doll displayed in the window and manifest a wish for one. When Mr. Barrie priced the dolls, the clerk would invariably ask how old was the child for whom it was intended. And because he was ashamed to say that the doll was for the dog, he would reply: 'Four years,' as that was the age of the Newfoundland."

"One Sunday they went to church in the country. The dog had been left outside. But he refused to be separated from his family. At the first opportunity he squeezed through the door, and Mr. Barrie beheld him marching up the aisle as the congregation were waiting for the service to begin. With a fascinated gaze his owner watched him make his lumbering way to the pulpit stairs and then ascend them. He looked all round, turning his head this way and that, in search of his master. Then, to gain better vantage, he put his forepaws on the Bible desk and calmly stood there on his hind legs, surveying the assembled congregation.

"Mr. Barrie did not wish to establish his responsibility for such behavior, and sat petrified lest the chancel door should open and the rector appear, who hated and was afraid of dogs. Miss Barrie, his sister, solved the difficulty by going up and gently leading 'Porthos' down."—Youth's Companion

PROPER DIET FOR LAZY MEN

Physician Advocates Liberal Feeding to Keep Person of Sedentary Habits in Proper Condition.

A proper diet for a person of sedentary habits whose bodily functions are inclined to sluggishness, as suggested by Dr. Tom A. Williams of Washington, is as follows:

"A glass of hot water before rising; grapefruit or two oranges in the morning with abundance of cereal, milk, and whole wheat bread with syrup; an ample lunch about the mid-day of the day, taken leisurely in pleasant surroundings, and a meal at night, preferably without meat, fish or eggs, taken in a leisurely fashion, also. One or two apples might be eaten just before retiring. One or two glasses of water during the morning and in the afternoon.

"Good respiratory habits must be acquired. Ten minutes in the morning while dressing, spent in taking slow abdominal muscle exercises, with deep breathing, should begin the day. They should be repeated for two or three minutes before luncheon, in the evening and before bed. A correct posture in a comfortable chair should be adopted at the desk, especial attention being given to prevent sagging of the abdominal muscles."

Toads have always been looked upon as batosomous and even poisonous by country people. From the skins, however, of toads, quacks in the middle ages used to make all sorts of medicines to sell to their patients.

The remarkable discovery has been made by Doctor Abel that the quacks were not so far wrong as many people thought. He made a study of a giant tropical toad found in the river Amazon, and from its skin he extracted a remarkable substance which cures dropsy.

Of course it has long been a "grandmother's remedy" to cure dropsy by means of the skin of a toad, and it was to find out if there was any truth in the remedy that Doctor Abel began experimenting. The same substance he found in this tropical species has also been found in the common toad. Soon doctors will prescribe, perhaps, boiled toad and caper sauce for dropsical patients.

HOW SOME SCANDALS START

Silly Act of Walter Caused Embarrassment to Lady Who Was Taking Lunch Alone.

Her husband was out of the city and she came downtown for lunch, choosing a tearoom for her eating place, relates the Indianapolis News. She was led to a small table where she sat alone—for a minute. A man entered the place, and notwithstanding there were plenty of empty tables, the waiter took the man to her table and seated him opposite her.

"You may imagine my surprise," she said to a friend later. "The tearoom began to fill up, and among the午餐者 many persons I knew. What will they think?" I said to myself. "Al's out of town, and here I'm dining with a strange man."

"But my troubles had only begun. The waiter put down my order and the man's order on the same slip."

"What are you doing that for?" I demanded. "Put my order on a separate slip."

The man opposite me seemed to see humor in the situation, as I caught him smiling.

"O, I didn't mean any discourtesy, I said to him.

The situation is just as embarrassing to me as it is to you, he replied, and seemingly to prove that he was a gentleman, he placed his card on the table. I recognized his name as that of one of my husband's friends, but I did not feel that I ought to introduce myself. Soon afterward some of my friends who had eaten their lunch came over to my table and began talking. I saw them sizing up the man, but, of course, I could not introduce them and they went away with plenty of material for gossip. I now realize how easily the mistake of a waiter might develop into a scandal and I have resolved never to enter a tearoom alone again."

Head-off That All-winter Cough

At the first sign of sore throat, tight chest or stuffed up head take a dose of Dr. Bel's Pine-Tar-Honey. The healing pine tar, soothing honey and glycerine quickly relieve the congestion, loosen up the phlegm and break up your cold. Dr. Bel's Pine-Tar-Honey has all the benefits of the aroma from a pine forest, it is pleasant to take and antiseptic. The formula on the bottle tells why it relieves colds and coughs. HOW TO STORE WASTE PAPER

Secret of Safe Keeping Lies in Compacting the Waste, Says an Authority.

How discarded papers—which the makers and consumers of new stock are asking us all to save—may be kept without undue risk of fire is a question that concerns not only the industrial economist, but the ordinary household, says the Boston Herald.

It should be understood that the fire hazards from papers properly stored need be no greater than that from the woodpile. The secret of safe storage lies in compacting the waste as fast as it accumulates. Papers smoothly packed, as in closed books, or closely bound, as in a well tied bundle of newspapers, are difficult to burn even with intention.

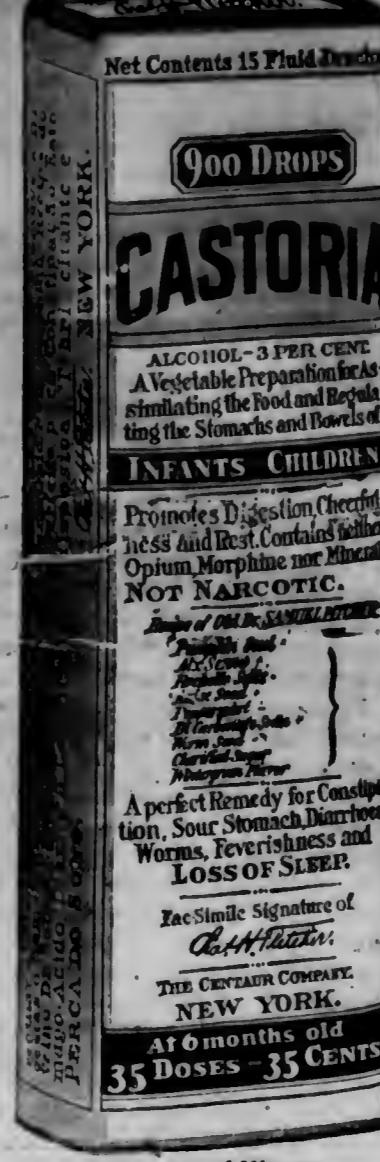

The private housekeeper can use to good advantage an ordinary meat ash can, fitted with another can cover small enough to fit inside, piston fashion, acting as both weight and plunger. If waste basket papers, for instance, are handled in this way, they may be kept with no risk. As newspapers and magazines accumulate, they should be piled evenly and tied, like ordinary bundles, both sideways and lengthwise. If practicable, all papers and rags should be stored in some outbuildings; if not, discretion can be used in choosing the safest corner of the house cellar, away from heaters and open lights.

From the Chestnut Tree.

Porter—"Do you want to be brushed off, lady?" Passenger—"No, thanks. I'll wait till the train stops and get off in the usual way."—New York World.

BEST CLAY FOR BRICKMAKING

Wealth That is Found Upon the Shores of the Hudson River in New York.

Magnificent and inspiring as the scenery is along the towering banks of the lordly Hudson, it isn't anywhere near as much of a moneymaker as the lowly bricks which are made along the shores of that favored stream. In the ten years past some 11,390,100,000 bricks, valued at \$60,407,258, have been fashioned out of the clay close to the water's edge, the New York World states. These bricks if laid flat, would make a sidewalk that would reach around the world. And it is estimated that there is still enough clay left on the banks of the Hudson to make 1,200,000,000 bricks a year for the next 50 years.

The stratum of clay extends along both sides of the Hudson from New York to Cohoes, above Troy, and takes in ten counties, one of them in New Jersey. It is the greatest brickmaking district in all the world. For a century the industry has thrived, and, strangely enough, the method of manufacture has changed hardly any in the lapse of these years.

It was in 1817 when the industry began to thrive. James Woods, an Englishman, had learned the trade of brickmaking in his native land and was attracted to Haverstraw, up the west bank of the river a few miles from New York. The vast quantities of fine brick clay there and the abundance of wood for fuel appealed to him, and he started the first successful brickyard in Rockland county. To Woods is given the credit for discovering that road dust made a fine ingredient for good bricks. He also invented tempering, mixing and molding machines, and these, but little modified, are used even in these times of new appliances for all forms of the industry.

SEVERE TESTS FOR WATCHES

Those Intended for Use in the British Navy Have to Be Absolutely Perfect in Make.

Only the best made chronometer would ever survive the tests watches are made to undergo at the Royal Observatory in Greenwich, England.

Usually there are always about two hundred watches under examination at the observatory for use in the British Navy. On certain occasions there is a complete trial of chronometers open to all makers who have sufficient confidence in their watches being able to withstand the severity of the tests.

During the competition the watches are exposed to every possible variation of temperature. They are baked in furnaces sufficiently hot to cook a roast of meat.

In fact, so great is the heat that a badly made watch has been known to tumble to pieces during the baking test. The moment a watch is taken out of the oven it is plunged into mixtures registering 40 degrees of frost.

To such perfection has the manufacture of some chronometers attained that even the most stringent tests fail to cause the slightest variation in the accuracy with which they tick off the seconds.

Good Joke on Mean Man.
The other day the mills had just stopped, and a weaver named Dick who was noted for his stingy and miserly ways, was going home. Dick hadn't been very well that day. Just as he left the mill he happened to meet a doctor. So, thinking he could get some medical advice for nothing he stopped the doctor and said he was very ill.

"Where do you suffer most?" said the medical man.

"In my chest, doctor."

"Ah, that's bad. Please close your eyes. That's right. Now put out your tongue, so that I can examine it closely."

Dick did as he was told. After he had waited for about ten minutes he opened his eyes to find an amused crowd of factory people round him, the doctor having meanwhile disappeared.

Not Always Synonymous.
Mary, writing a letter: "Which shall I say, 'Mrs. Brown called last evening, or 'Mrs. Brown called last night?'"

Earl, looking up from his paper: "Either expression will do; they mean the same thing."

"If that is the case, why do we say 'Good evening' when a visitor calls and 'Good night' when he goes?"

"From force of habit, I presume Evening and night are synonymous terms."

"They may be synonymous, but when my name appears in the society columns I guess you would rather have the report say that I appeared clad in a tasteful evening gown instead of saying I was clad in a tasteful night gown." —Pittsburgh Chronicle-Telegraph.

Charm Widely Used.
It is curious to note in how many forms of ornamentation the Swastika appears. In Italy it has been discovered on urns in which the dead were encased; in the Swiss lake district it was stamped on pottery; in Scandinavia it appears on carved pins and brooches; in China and Japan it was frequently employed on porcelain and sometimes used as a potter's mark and a pattern on silks. Among the Indians of North and South America cooking utensils and ornaments bear the sign. In every instance it signifies "good luck."

She Stayed In Bed.

Ingram, Tex.—"Ever since I became a woman," writes Mrs. E. M. Evans, of this place, "I suffered from womanly troubles. Last fall I got so bad, I had to stay in bed for nearly a week every month. Since I have taken Cardui, I feel better than I have for years." You can rely no Cardui. It acts on the womanly organs and helps the system to regain its normal state of health, in natural way. Prepared especially for women, it prevents womanly pains, by acting on the cause, and builds up womanly strength in a natural way. Purely vegetable. Mild, but certain in action. Try it.—Advertisement.

**BRITISH RELEASE
U. S. TOBACCO**

Shipments Held at Copenhagen and Rotterdam Freed at State Dept's Protest.

Washington, Oct. 25.—Release of between \$2,000,000 and \$3,000,000 worth of American tobacco held at Copenhagen and Rotterdam because of failure to comply with the condition of importation laid down by Great Britain has been ordered as a result of representations made by the state department. The department announced that it had been advised of the action by the British embassy, the statement adding that "officers of the department express much satisfaction over the concession given in this case."

Because of inadequate warehouse facilities the dampness and chilliness of the atmosphere, the special brands of tobacco designed solely for use in those countries would have been almost a complete loss unless relief had been given quickly.

**JACKSON-
WILLIAMSON**

Culmination of a Romance Begun at Kentucky University.

A beautiful fall wedding was solemnized at 10:30 yesterday morning at the First Baptist church. Miss Adelia Williamson was united in marriage to Mr. John Thomas Jackson, of Akron, Ohio.

Just before the ceremony, Cadman's "At Dawning" was beautifully rendered by Mr. Robt. Wright, with Miss Marion Dorch accompanying;

then the bridal party entered to the strains of Lohengrin played by Mrs.

young lady possessed of much beauty and numerous accomplishments. She had been residing with her brother, Mr. Thomas Roberts, near Bolivar.

The groom is a son of Mr. and Mrs. Howard Major, of Beverly, and is a popular young man, who is engaged in farming with his brother-in-law, Mr. G. C. Hille, near St. Elmo.

The young people, on their return from Nashville last evening, were given a reception and supper at the home of Mr. Chrlie Major, brother of the groom, near Beverly. This function was a double-barreled affair, the date being the fiftieth anniversary of the marriage of Mr. and Mrs. Howard Major, parents of Mr. Major, and the event was celebrated in great style. A very large crowd was present to enjoy the festivities. Among those from the city who attended were Roy Kenner and wife and Mrs. Eliza Cayce. The newly wedded couple will reside near St. Elmo.

Penick and Cyrus Williamson, the ushers, preceded Miss Ruth Bay-

ham, the maid of honor, and Mr. W. J. Piggott, Jr., of Paducah, the best man. Miss Williamson entered with Mr. Jackson and the ring service was performed simply and impressively by Rev. C. M. Thompson.

The bride was charmingly gowned in African brown and carried white chrysanthemums. The maid of honor wore a suit of blue broadcloth with gray accessories and her flowers were yellow chrysanthemums.

Mr. and Mrs. Jackson left for an Eastern trip, after which they will make their home in Akron, Ohio, where Mr. Jackson is connected with the Goodyear Tire and Rubber Co.

The wedding is the culmination of a romance begun in college days, when the bride was a fair co-ed and the groom, who then lived in Lexington with his father, Mr. J. T. Jackson, Sr., was in the department of mechanical and electrical engineering of the Kentucky University.

The bride is a daughter of the late W. T. Williamson and Mrs. Laura Williamson and is one of the city's most charming girls and most a popular member of Hopkinsville society.

The young couple both here and at Lexington have a host of friends whose best wishes follow them to their home in the North.

Among the out-of-town guests were Mr. and Mrs. J. T. Jackson, of Lexington, Ky.; Mrs. Nat Dorch, of Louisville, and Miss Ella Turner, of Mobile, Ala.

MAJOR-ROBERTS

Marriage on Fiftieth Wedding Anniversary of Groom's Parents.

Lived Only Ten Hours.

P. H. Major and Miss Anna Roberts were united in marriage in Nashville, Tenn., yesterday. The young people made the trip in an automobile and the ceremony was performed at the residence of Mr. and Mrs. Earl Bradley, formerly of this city. The bride

were received at the Western State Hospital a few days ago, died in ten hours after his arrival at the institution. He was violently insane and almost in a dying condition when he reached the city. Rushing was 44 years old. The interment took place

a sister of Mrs. Bradley and is a

in Riverside Cemetery.

**STABLE IS
DESTROYED**

Three Head of Stock and Lot of Implements and Burned.

A stable belonging to Mr. Matt S. Major near Herndon, was destroyed by fire about noon Tuesday. Three head of stock, two mules and one horse perished, and a lot of implements and provender, was consumed. A tenant house, near by was also destroyed. The loss is several hundred dollars. The origin of the fire was not learned.

Kentucky Couples.
Buris Toler, of Elkton, Ky., and Miss Beth Scruggs, were married Saturday evening at 7 o'clock in the office of the County Court Clerk by Esquire John Osborne. Sunday afternoon Rev. E. J. Barnett tied the knot for Charles C. Crain, of Hopkinsville, and Miss Lois E. Eastland. The ceremony took place at the Arlington Hotel. —Leaf-Chronicle.

ENGAGEMENT ANNOUNCED.

At a 6 o'clock dinner given by Mr. and Mrs. J. D. Reed the engagement of Miss Mary Franklin and Mr. Sam Bohn was announced. The bride-to-be is a sister of Mrs. Reed. The date of the wedding will be announced later.

Hyde-Wilson.

Strother T. Hyde, aged 25, and Miss Katie Clarice Wilson, age 27, of Dulaney, were married at the home of the bride last Saturday morning, the Rev. Rudolph Lane, performing the ceremony. —Princeton Leader.

Ashley-Payne.

George Ashley, of Eddyville, and Miss Mary G. Payne, of Pembroke, were united in marriage here yesterday. They will reside at Eddyville, where the groom holds a position as guard at the State prison.

Cartwright-Elder.

Prof. Otho N. Cartwright, age 40, of Friendship, and Miss Anna May Elder, age 18, of Fredonia, were married at the home of the bride Sunday morning. —Princeton Leader.

To Separate Postage Stamps.

In damp weather, or by careless placing, postage stamps sometimes stick together. When this happens, place them on a newspaper in a hot oven for a few moments. As soon as the stamps get hot the glue dries and by pressing between the fingers it is readily broken, and the stamps may be easily separated without the least damage.

Aerial Ferry Over Niagara.

An aerial ferry, the greatest of its kind ever constructed, now crosses the famous Niagara Whirlpool at Niagara Falls. It has recently been operating for the public for the first time. The ferry is a huge car suspended from powerful cables and gives sight seeing tourists a new and interesting view of the falls and all around. Aside from the views, the thrills experienced in being carried through the air in so unusual a way are said to be well worth the ride.

The cables from which the car is suspended are 1,800 feet in length and though of great strength no more than thirty-six passengers are ever allowed to occupy the ferry. It travels 150 feet above the whirlpool, and even at this height, the noise from the falls is so great that conversation is hardly possible.

In a Class by Themselves.
"There is one class of men employers are anxious they should strike." "Who are they?" "Baseball batters." —Baltimore American.
